

The Power of Story I & II

8 Week Workshop

Tired of making boring presentations that don't influence anyone?

Would you like to communicate in a way that others remember what you said?

Would you like to be more influential, inspirational, or persuasive?

There is no greater tool than story when you want to influence others

- Clothing truth in story is a powerful way to get people to open the doors of their minds to you and the truth you carry.
- Story gives meaning to life.
- Story is used in every culture to communicate values, ideas, and worldviews.
- A good story simplifies our world into something we understand
- Stories are enjoyed by people on all educational levels

A storytelling course can transform how you connect with others, turning your everyday experiences into captivating narratives that inspire, entertain, and create lasting impact.

SABA offers 2 different 8 week workshops

- **Power of Story I** is a study of the use of Bible stories for every educational level with attention given to selecting, adapting, learning, and telling Bible stories with a view to evangelism, discipleship, leader development, and starting churches.
- **Power of Story II** is a study of the use of Bible stories with attention given to grouping stories together in story-sets or in a chronological format. The Chronological Bible Storytelling method teaches biblical truths along the same timeline in which God chose to reveal Himself.

You should attend a workshop if you are a: Minister; Church leader; Sunday School teacher; Anyone who communicates the truths of Scripture; Anyone who lives to study God's Word
