WHY AI MATTERS FOR PASTORS AND THE CHURCH

45%
CHURCHES USING AI
Nearly half of U.S. churches now use AI for ministry tasks—projected to hit 60% next year.

80%
AI USAGE GROWTH
Ministry AI use has soared since 2024, driving efficiency and freeing leaders for spiritual work.

87%
LEADER SUPPORT
Church leaders support using AI in ministry, with 66% now using AI tools at least occasionally.

CREATING MEDIA
47% of churches use AI for images and graphics to enhance worship materials and communications.

SOCIAL CONTENT
44% generate social media content to maintain congregation engagement throughout the week.

DATA ANALYSIS
Churches analyze congregational data for better outreach and community connection.

AI ENABLES MINISTRY TRANSFORMATION

- **FASTER communication** - reach your congregation instantly across all platforms
- **SMARTER ministry** - less administration, more people focus
- **DEEPER engagement** - personalized connection between Sundays
- **GROWTH and innovation** - attract younger generations through technology

> "Churches, like virtually every other organization in 2025, are riding the wave of enthusiasm for artificial intelligence solutions." — State of Church Technology Report

WHY ADOPT AI NOW?

Stay relevant while upholding your spiritual mission. AI multiplies your efforts, helps better serve communities, and meets people where they are—all while preserving the irreplaceable human element of pastoral care.

AI is a tool for efficiency, not a replacement for spiritual leadership. Embrace technology to expand your ministry's impact while focusing on what matters most: people.
