

Why Summer Tech Camp Matters to the Church

Empowering the Next Generation of Church Leaders

Your camp trains **middle and high school students** in essential media technologies:

-  **Camera operation**
-  **Audio mixing & soundboards**
-  **Video editing**
-  **Live streaming & church media production**

These skills directly equip students to **serve in church media ministries**, ensuring your congregation thrives in today's tech-driven worship environment.

Why This is Critical for Pastors & Churches

1 Church Media is Ministry Now

87% of churches say technology plays a vital role in fulfilling their mission.

From livestreaming to worship slides, media is **how people connect**.

2 Volunteers are Scarce and Skills are in Demand

43% of churches report difficulty finding trained media volunteers.

Your camp creates a **pipeline of ready, capable students** who can serve immediately.

3 Technology Attracts and Engages Youth

Tech ministry gives students **purpose and ownership** in church.

Churches that involve youth in production report **higher retention** and **greater participation**.

4 Builds Confidence, Creativity, and Commitment

Students develop **teamwork, problem-solving**, and **creative expression** while supporting the church.

Many campers go on to **serve weekly** or **pursue careers in media or ministry**.

Your Camp Supports the Great Commission

"Go and make disciples of all nations..." – Matthew 28:19

By equipping youth with tech skills, you are giving them tools to **spread the Gospel**, **share testimonies**, and **reach beyond church walls**.

Real-World Outcomes

- Students gain **professional-level** skills using real gear found in churches.
- Alumni from your camp have gone on to **intern with churches, volunteer weekly**, and even **help launch new ministries**.
- Camps like yours have helped churches **upgrade their media teams**, improving sound quality, broadcast professionalism, and digital outreach.
